Safe Workplace Made Together

Pig Farm Working Environment Management

Let's always practice

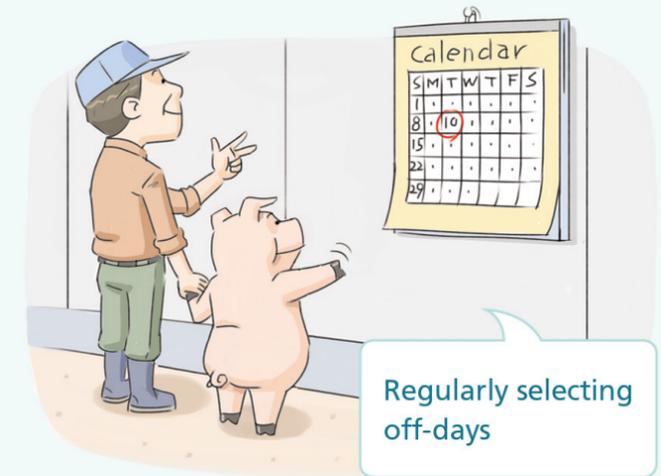

Managing workers' health

Washing hands and feet and taking a shower immediately after work

Washing and storing work clothes in separate spaces

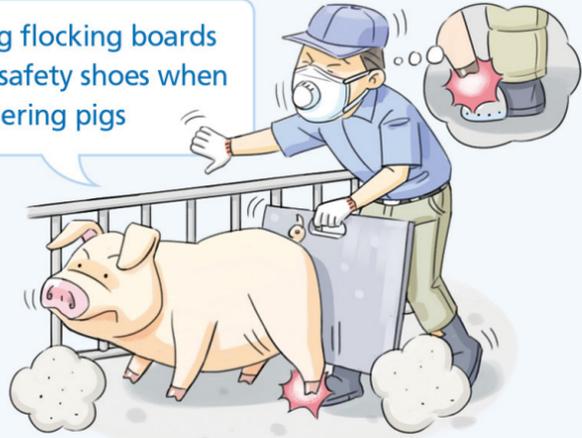

Regularly selecting off-days

Let's always use the following

Using convenience equipment

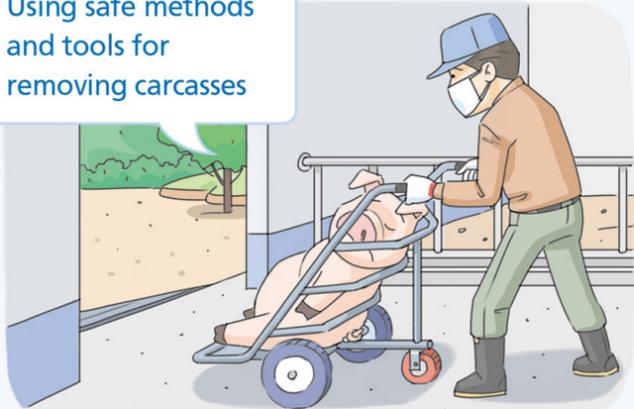

Using flocking boards and safety shoes when gathering pigs

Using ramps to avoid bumps in the passageways

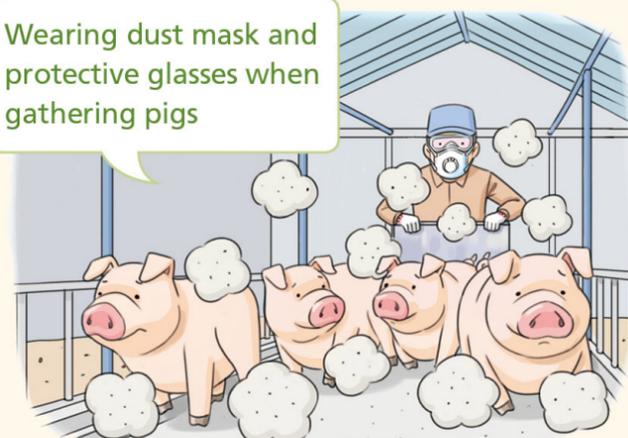

Using safe methods and tools for removing carcasses

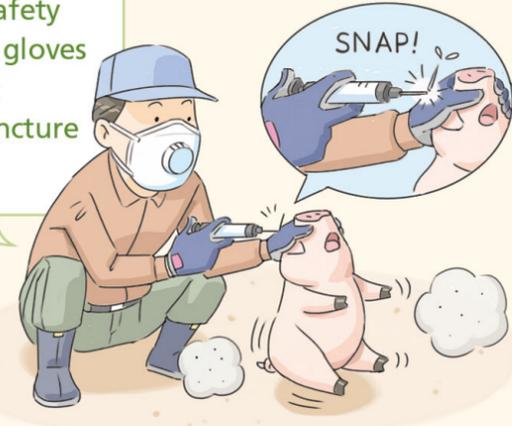

Please practice these

Wearing personal protective gear

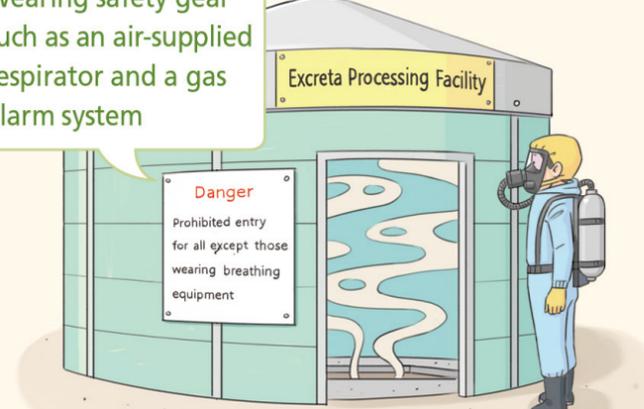

Wearing dust mask and protective glasses when gathering pigs

Wearing safety protective gloves to prevent needle puncture accidents

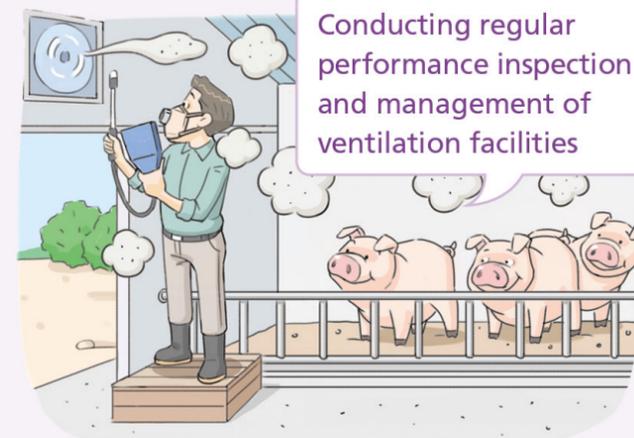

Wearing safety gear such as an air-supplied respirator and a gas alarm system

Let's improve consistently

Preventing safety accidents

Conducting regular performance inspection and management of ventilation facilities

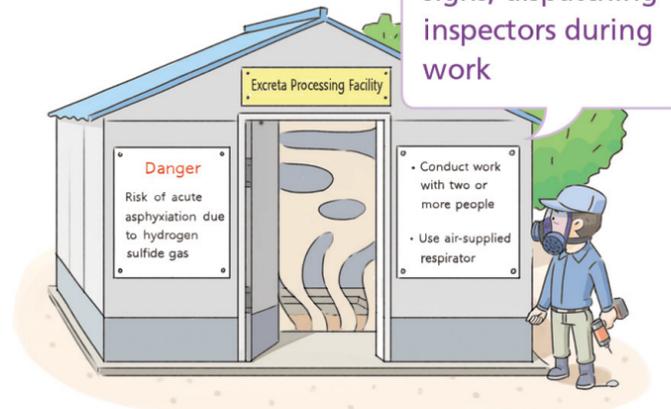

Installing screens in machines that present risks of jamming accidents

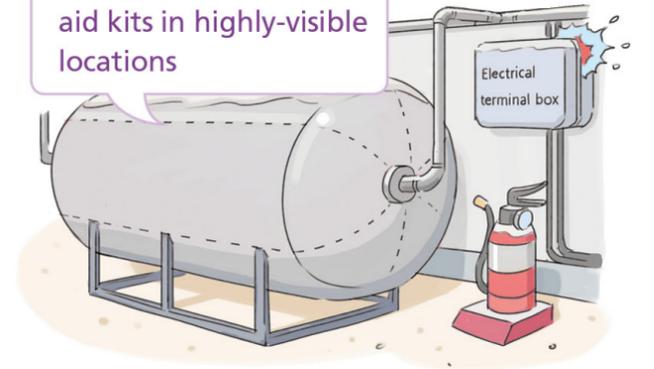

Attaching anti-slip tape on stairs

Attaching warning signs, dispatching inspectors during work

Placing fire extinguishers and first aid kits in highly-visible locations

Making it a habit of cleaning and neatly arranging workplaces
